Mert Bülent SARIYILDIZ

mertbulent.sariyildiz@naverlabs.com • mbsariyildiz.github.io

Research Interests

I study machine learning models applied to computer vision applications. My research particularly focuses on developing data-efficient visual models for uni or multi-modal semantic visual scene understanding.

Education

Bilkent University, Computer Engineering Department — **Ankara, Turkey**
M.Sc. in Computer Engineering — *09/2016 - 09/2019*

- Advisor: Assoc. Prof. Selim Aksoy
- Co-advisor: Asst. Prof. Ramazan Gökberk Cinbiş
- GPA: 3.71

Anadolu University, Electrical and Electronics Engineering Department — **Eskişehir,Turkey**
B.Sc. in Electrical and Electronics Engineering — *09/2012 - 05/2016*

- Advisor: Prof. Ömer Nezih Gerek
- GPA: 3.72
- **Ranked 1st in the Engineering Faculty**

Anadolu University, Department of Foreign Languages — **Eskişehir,Turkey**
English Language Program — *09/2011 - 06/2012*

Research and Work Experience

NAVER LABS Europe — **Grenoble, France**
Doctoral Researcher — *09/2019 - present*
Joined the Computer Vision team at NLE as a research scientist. I am working under the supervision of Dr. Diane Larlus.

NAVER LABS Europe — **Grenoble, France**
Intern — *02/2019 - 08/2019*
Studied under the supervision of Dr. Diane Larlus and Dr. Julien Perez in the Computer Vision team at NLE.

METU ImageLab — **Ankara,Turkey**
Member — *10/2017 - 09/2019*
A member of the vision group ImageLab at Middle East Technical University.

Bilkent University — **Ankara,Turkey**
Researcher — *09/2016 - 09/2019*
Studied weakly supervised learning problems and generative models. Between 02/2018 and 02/2019, my studies had been funded by TUBITAK (Scientific and Technological Research Council of Turkey) within the scope of a research project with title: "Learning Visual Recognition Models with Incomplete Supervision" and no: 116E445.

Visea Innovative Inc. — **Eskişehir, Turkey**
Project Engineer — *09/2015 - 08/2016*
Worked on developing computer vision algorithms, using C++ and C# languages, to address several industrial problems.

Aselsan Inc. — **Ankara, Turkey**
Intern — *07/2015 - 09/2015*
Worked on developing OpenGL based graphical user interface to visualize 360 degrees antenna measurements.

Teaching Experience

- *TA* – Bilkent University, CS102 - Algorithms and Programming - 1
- *TA* – Bilkent University, CS102 - Algorithms and Programming - 2
- *TA* – Bilkent University, CS113 - Introduction to Computing
- *TA* – Bilkent University, CS464 - Image Analysis

Publications

Journal and Conference Papers, and Preprints

- M. B. Sariyildiz, J. Perez, D. Larlus, "Learning Visual Representations with Caption Annotations", European Conference on Computer Vision (ECCV), 2020.

- M. B. Sariyildiz, R. G. Cinbis, E. Ayday, "Key Protected Classification for Collaborative Learning", Pattern Recognition (SCI), 104, pp. 107327, August 2020.

- M. B. Sariyildiz, R. G. Cinbis, "Gradient Matching Generative Networks for Zero-Shot Learning", in IEEE Conference on Computer Vision & Pattern Recognition (CVPR), 2019 (oral presentation).

Book Translations

- "Derin Öğrenme (translation of Deep Learning by Goodfellow et al.)", translated by H. Aydın, R. G. Cinbiş, Y. D. Çetin, B. Demirel, S. Kalkan, H. Moğultay, M.B. Sarıyıldız, G. Sümbül, F. Yarman Vural, in Buzdağı Yayınevi, 2018.

Talks

- "Generative Models for Zero-shot Learning", METU ImageLab seminar, Ankara, Turkey. 11/2018
- "Exploiting Unsupervised Data for Zero-shot Learning", Bilkent University CS590 research seminar, Ankara, Turkey. 11/2017

Professional Activities

- Reviewer for IEEE International Conference on Computer Vision and Pattern Recognition (CVPR)
- Reviewer for IEEE International Conference on Computer Vision (ICCV).
- Reviewer for IEEE European Conference on Computer Vision (ECCV).

Honors and Awards

- NAVER LABS Europe the intern day 2019 session-1 winner award. 07/2019
- Research & teaching assistantship, full tuition award by Bilkent University. 09/2016
- Ranked 1st at graduation from Anadolu University, Engineering Faculty. 05/2016
- 6 certificates of high honor by Anadolu University, Electrical and Electronics Engineering. 2012-2016

Research Grants

- *Virtual Eye*, assistive device for visually impaired people. Fundings granted by TUBITAK(Scientific and Technological Research Council of Turkey) 2209B Undergraduate Research Project Support and Savronik, 2016.

Skills

Technical
C/C++, Python, JAVA, MATLAB, TensorFlow, PyTorch, OpenCV, Qt, git

Language
Turkish (native), English (fluent)
